

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. ORGANIZATION AND FUNCTIONS OF THE DIVISION OF STATISTICS.

The law providing for the collection and publication of statistics of labor and manufactures by the Department of Labor and Industries appears in the General Laws as Chapter 149, Sections 169 to 171, inclusive. Section 170, having specific reference to publications, reads as follows:

SECTION 170. The commissioner shall make an annual report of the acts of the department relative to statistics. He shall prepare annually for distribution as public documents a report on the statistics of labor which shall embody statistical and other information relating especially to labor affairs in the commonwealth, and a report on the statistics of manufactures to be gathered as provided in the following section. The state secretary shall print for the use of the department and other purposes such numbers of these reports as the supervisor of administration may designate. The commissioner may publish, at such intervals as he deems expedient, bulletins or special reports relative to industrial or economic matters.

The DIVISION OF STATISTICS as now organized consists of four branches as outlined below:

Labor Statistics. Lester E. Archibald, Statistician.

For the collection and tabulation of statistical and other information relating to matters affecting labor and the condition of the working people, as well as questions of general economic and social interest.

Manufactures Statistics. Margaret Shea, Statistician.

For the collection and tabulation of statistics of manufactures and the preparation of an industrial directory.

Library. Helen G. Estey, Librarian.

For the answering of inquiries by members of the Department and the public, relative to the industrial and social welfare of the population.

Public Employment Offices. Roswell F. Phelps, Director.

There are three placement offices, located respectively at:

Boston, 8 Kneeland Street. G. Harry Dunderdale, Superintendent.

Springfield, cor. Water and Worthington Streets. Chester W. Allen, Superintendent.

Worcester, 48-52 Green Street. William A. Wilder, Superintendent.

The labor statistics collected by the Division are published in "Labor Bulletins," which are numbered consecutively as issued, and each number contains matter devoted to one subject. In addition to the Labor Bulletins the division issues quarterly the "Massachusetts Industrial Review" (see cover page 3).

Statistics with reference to manufactures are published annually in a report entitled "Report on the Statistics of Manufactures." A directory of such establishments is also maintained in the office, and this directory is kept up to date by the addition of new establishments and the elimination of those which have gone out of existence.

The administration of the public employment offices and general supervision over the department library are also included as a part of the duties of the Director of the Division of Statistics. A report relative to the activities of these offices is issued annually, and statistical data are published quarterly in the "Massachusetts Industrial Review."

TWENTIETH ANNUAL
DIRECTORY OF LABOR ORGANIZATIONS
IN MASSACHUSETTS, 1921.

INTRODUCTION.

The matter presented herewith constitutes the Twentieth Annual Directory of Labor Organizations in Massachusetts,¹ the first directory of this character having been published in August, 1902.

The present edition consists of four divisions, as follows:

I. "National and International Organizations," having one or more affiliated local unions in the United States (page 5);

II. "State, District, and Trades Councils," consisting of organizations composed of delegates from local organizations within a particular trade or group of trades, or within a definite district comprising more than a single city or town (page 9);

III. "Central Labor Unions and Local Councils," composed of delegates from local unions in the same locality (page 13);

IV. "Local Trade Unions," composed of wage-earners in a single locality directly associated in what may be called the "unit body" of organization (page 18).

Since issuing the directory in 1920, careful records have been kept, as heretofore, of all changes in meeting places, secretaries, and other information pertinent to the subject. Schedules were sent in December, 1920, to all of the National and International Unions in the United States requesting a list of their affiliated locals in Massachusetts, together with the names and addresses of the respective local secretaries, and similar schedules were sent to all State, District, and Trades Councils and Central Labor Unions and Local Councils. The Department has been able, by these means, and also by a careful consideration of rosters issued by labor organizations and of newspaper clippings relative to organizations in the Commonwealth, to secure information with reference to the organization of new unions, the disbanding of those formerly existing, and changes in the data relative to organizations previously listed.

¹ Prior editions of the directory have been published in the Labor Bulletins, as follows: 1902, No. 23 and No. 24 (reprint of No. 23); 1904, No. 33; 1905, No. 37; 1906, No. 43; 1907, No. 52; 1908, No. 61; 1909, No. 68; 1910, No. 76; 1911, No. 83; 1912, No. 93; 1913, No. 94; 1914, No. 98; 1915, No. 106; 1916, No. 113; 1917, No. 119; 1918, No. 123; 1919, No. 127; 1920, No. 130.

A schedule of inquiries, among which were certain inquiries which had special reference to this edition of the directory, was mailed on December 31, 1920, to each local union in Massachusetts known to be in existence.¹ Schedules were received by mail directly or were obtained by field agents of the Department from nearly all of the organizations listed in this edition. In the remaining cases, the desired information has been obtained from the secretary of the National or International organization with which the local organization is affiliated, or from some other reliable source.

Owing to the fact that the collection of returns and the preparation and printing of the directory have necessarily covered a period of several weeks, some changes have no doubt occurred since the information herein presented was obtained; consequently, those who have occasion to consult this directory should bear this fact in mind. Local secretaries are urged to send notice of any change in the particulars published herein concerning the organizations with which they may be connected.

In the preparation of this edition of the directory the Department has been fortunate in securing the cordial co-operation of the labor officials with whom it has had occasion to communicate.

IV. LOCAL TRADE UNIONS.

The names of the local trade unions appear in the following presentation, grouped, for ready reference, by trade and occupational headings, under the respective municipalities in which they are located.

The following facts are given for each union: Name, place and time of meeting (when time of meeting is not given, union meets at 8 p.m. on week days and 2 p.m. on Sundays), name and address of secretary, business agent, or other authorized correspondent.

When name of any official is given, without address, he should be addressed at place of meeting.

All but a few of the local unions are affiliated with national or international bodies, these few being entirely independent of any other labor organization.¹
